Welcome to the 2020 Janssen Angus Production Sale!

This 28th Auction of Janssen seedstock is without doubt the best set of bulls and females we have ever had to offer, and we are proud to offer them for sale to our valued customers! **THIS IS THE ONE SALE IN IOWA THAT YOU CANNOT AFFORD TO MISS!**

The bulls are a powerful set of performance and muscle sons of SAV President 6847, SAV Raindance 6848, SAV Renown 3439 and Connealy Earl Marshall! The Calving Ease, Heifer bulls this year are sired by SAV Rainfall 6846, SAV Governor and LD Capitalist 316! We have added a set of top end Hereford bulls to this years offering, all derived from embryo matings from Hoffman Herefords, Thedford, NE and Topp Herefords, Grace City, ND! We retained several Hereford females and are serious about supplying our customers with the Heterosis that the Hereford breed offers each and every year!

The females are straight from the keeper pen! So many of them are ET females from our top donors like Janssen Madame Pride 4502.

A special red carpet sale feature this year is S A V Madame Pride 3918, one of the most prolific females we have ever owned and the mother of the \$30,000 Janssen Daytona, who sold in our first production sale to Alta Genetics. She also produced a \$14,000 heifer that sold to Simons Cattle Co and a \$13,000 bull that sold to Rick Beard, Texas, in our last production sale.

We are humbled and very proud to serve as your seedstock source, and are doing everything we can to improve the quality of cattle and the bottom line of your operation!

Please call now to schedule a visit to the farm to view the bulls and females offered in this sale! 515-468-8221

- The only Sim-Angus bull in the entire offering is especially good in terms of overall performance, eye appeal and pedigree! His dam is actually a pure ANGUS female that is not registered in the American Simmental Association, but for the commercial cattleman that is looking for heterosis and that shot of Simmental, here is an excellent opportunity to pick up an exceptional individual from the first calf crop of Hilb Ready to Rise!

Dear Janssen Angus,

I purchased the Renovate 6168 bull at your sale in 2017. I entered three bulls at the Iowa Angus Bull Test station. A son of Renovate was the top-gaining bull. They were fed for 110 days and he gained 5.3 pounds per day.

COMMERCIAL HEIFERS

THE MOST ELITE SET OF F1 BLACK BALDY AI BRED REPLACEMENT HEIFERS TO SELL IN IOWA THIS YEAR!

This set of replacement females is by far the best we have ever sold, and I would suggest that they might be the nicest set of females to sell this spring. All the homework is done: AI Bred to SAV ANGUS VALLEY 1867 AND SAV EXPERTISE 7028, second cycle confirmed to calving-ease SAV Angus Valley 1867 son, Janssen Valley View 7005! All of these females are true F1 females, black Angus mothers and Topp Hereford sires! The Hereford sires were selected from the top 10% of the TOPP Hereford program in Grace City, ND. The Topp program is known for producing high volumes of maternal, good uddered, longevity oriented cattle and is known world-wide for their commitment to the commercial bull industry.

We are so excited about this group brought to us again by KURT AND MIKE CLARK, our neighbors to the north. They take pride in the management of bred heifers and only sell the very best AI bred and top end bull bred females with all the bells and whistles. The heifers have been ultrasound pregnancy confirmed for the listed calving dates, all have been pelvic measured and tract scored, all are up to date on all vaccinations, all poor dispositions have been culled and they come with the full recommendation of Janssen Angus!

Questions, please call owner, Kurt or Mike Clark 641-757-0012 or Janssen Angus at 515-468-8221.
